Patient Policy

Overview

The PNC Patient Portal website is maintained by PNC and provided to healthcare organizations who manage the service to provide patients with secure access to health information.

This policy describes how we, PNC, collect and use your information when you use the Patient Portal.

We may update this policy at any time, and future updates are effective as soon as they are published.

To use our Patient Portal, you must have an account with a healthcare organization. Because of this, your use of the Patient Portal is also subject to your healthcare organization's privacy

policy. Please contact your healthcare organization if you have any questions about their privacy policy and the type of information they collect.

Your Personal Information

The Limited Ways We Use Your Information

We do not sell or license your information. These are the limited ways we interact with your information in connection with the PNC Patient Portal:

- When you choose to view documents from your healthcare organization (such as letters or images) using our Patient Portal website, some files may be saved to the web browser's temporary storage location.
- When you choose to download or print documents from your healthcare organization (such as letters or images) using our Patient Portal website, these files may be saved to your device.
- When you choose to include images in a message you send to your healthcare organization using the Patient Portal, you may select an existing photo from your device or take a new photo within the Patient Portal. Depending on your device, the image may be saved to your camera app.
- If your healthcare organization offers telehealth visits using our Patient Portal, we do *not* record or store video or audio data from these visits.
- If your healthcare organization offers location-based check in for in-person appointments, you may choose to allow our mobile apps to interact with your location data for those purposes. We do *not* store your location data.
- While you use our Patient Portal, we collect the IP address, and other *non-identifying information* so we can provide customer service to you or your healthcare organization and understand how people use our Patient Portal so we can improve our products.
 - This information includes the time you began using the portal, the healthcare organization you interacted with, any error messages or codes, and areas within the portal you interacted with.
 - This information may be shared with 3rd parties for security and operational purposes.
 - This information may be retained for up to 1 year.
- Data retention is governed by the healthcare organization's policies, applicable laws and regulations, and contracts.
- If you contact us, we may keep a record of the communication. You can decide how much information you want to share with us in those cases.
- During a visit where Artificial intelligence (AI) is used, the provider is prompted to obtain verbal consent on the use of AI with the patient/client before the AI services can be used.
- If your healthcare organization chooses to utilize Artificial intelligence (AI), the prompts (inputs) and completions (outputs), embeddings, and data:
 - are NOT available to other organizations.

- are NOT available to OpenAI.
- are NOT used to improve OpenAI models.
- are NOT used to train, retrain, or improve Azure OpenAI Service foundation models.
- are NOT used to improve any Microsoft or third party products or services.

How We Protect Your Personal Information

PNC takes very seriously its obligation to protect the confidentiality of your personal information. The OpenSuite Electronic Health Record Web Apps ("Staff Web Apps", "Patient Portal") are intended to connect to servers and systems operated and maintained by PNC and the healthcare organizations that use PNC.

We use technical controls and safeguards to protect the privacy, security, integrity, and availability of your personal information.

- Your organization may enable the use of multi-factor authentication for users of the PNC Patient Portal.
- We use https for secure communication between servers, and when you visit the website.
- When you view data in the PNC Patient Portal, that data is temporarily stored on your device but is removed when your session ends.
- Data stored on PNC systems is encrypted at-rest and in-transit.
- We maintain internal policies and processes that limit access to your information to our staff who need to know the information to perform their jobs.

The healthcare organization you are affiliated with when using the PNC Patient Portal also uses safeguards to protect your information. Contact them if you have any questions about their safeguards.

Steps you can take other steps to protect your information

- Do not share the username and password you use for accessing the PNC Patient Portal.
- If you believe any unauthorized access has occurred, change your password immediately and contact your healthcare organization.

Your Rights

If you have questions about your medical information in an account with a healthcare organization using PNC software, please reach out to your healthcare organization using the contact information in their privacy policy. You may have data privacy rights under HIPAA or other applicable laws.

Provider Policy

Overview

The PNC Staff Web Apps website is maintained by PNC and provided to healthcare organizations who manage the service.

This policy describes how we, PNC, collect and use your information when you use the PNC Staff Web Apps.

We may update this policy at any time, and future updates are effective as soon as they are published.

To use our PNC Staff Web Apps, you must have an account with a healthcare organization. Because of this, your use of the PNC Staff Web Apps is also subject to your healthcare organization's privacy policy. Please contact your healthcare organization if you have any questions about their privacy policy and the type of information they collect.

Your Personal Information

As described below, our applications are maintained by PNC and provided to healthcare organizations who manage the service.

The Limited Ways We Use Your Information

While you use the PNC Staff Web Apps, we collect the IP address, and other *non-identifying information* so we can provide customer service to you or your healthcare organization and understand how people use the PNC Web Apps so we can improve our products.

- This information includes the time you began using the PNC Web Apps, the healthcare organization you interacted with, any error messages or codes, and areas within the website you interacted with.
- This information may be shared with 3rd parties for security and operations purposes.
- This information may be retained for up to 1 year.

Connections to Healthcare Institutions

To use our applications, you must have an account with a healthcare institution who uses PNC's software. Your use of our application with that healthcare institution may be subject to that healthcare institution's policies and terms. While connected to or attempting to connect to a healthcare institution's system, the healthcare institution may collect, store, process, maintain, upload, sync, transmit, share, disclose, and use certain data and related information, including but not limited to information or data regarding the characteristics or usage of your device, system and application software, and peripherals as well as your personal information, location data, and other content.

Please contact your employer or other entity that provides your access to our applications if you have any questions about their policies or terms.

Using Third Party Tools and Features

If you use any third-party tools and features, such as third-party speech-to-text dictation or third-party video, your use of those features is subject to the terms and policies of those third parties. If you have any questions about those terms or policies, you should contact your healthcare institution or the provider of the third-party tool.

If your healthcare organization chooses to utilize Artificial intelligence (AI), the prompts (inputs) and completions (outputs), embeddings, and data:

- are NOT available to other organizations.
- are NOT available to OpenAI.
- are NOT used to improve OpenAI models.
- are NOT used to train, retrain, or improve Azure OpenAI Service foundation models.
- are NOT used to improve any Microsoft or third party products or services.

How We Protect Your Personal Information

PNC takes very seriously its obligation to protect the confidentiality of your personal information. The OpenSuite Electronic Health Record Web Apps ("Staff Web Apps", "Patient Portal") are intended to connect to servers and systems operated and maintained by PNC and the healthcare organizations that use PNC.

The security of your information and data while using our Applications is very important to us. Our Applications employ a variety of technical safeguards to protect the confidentiality, integrity, and availability of your personal information including supporting Transport Layer Security (TLS)/Secure Sockets Layer (SSL) certificate technology and encryption.

In addition, healthcare organizations with whom you connect may use a variety of physical, administrative, and technical measures to protect your personal information.

Data retention is governed by the healthcare organization's policies, applicable laws and regulations, and contracts.

Contact PNC

If you have questions about medical information in an account with a healthcare organization using PNC's software, please reach out to your healthcare organization using the contact information in their privacy policy.

If you have any questions about this Privacy Policy, you may contact PNC at +1 781.272.9800 or at privacy@pointnclick.com.

Website and PncCommunity Forum Policy
